*Elections/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1,2,4-61 and 73 drawn to a support frame for an interactive display, classified in class 361, subclass 681.
  - II. Claims 62,63,65-69 and 74, drawn to electronic whiteboard system, classified in class 345, subclass 158.
2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a support frame for an interactive display does not require an electronic whiteboard system of invention II. Invention II, such as electronic whiteboard system does not require a support frame for an interactive display. See MPEP § 806.05(d).
3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2629

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

6. A telephone call was made to Mr. Ryan A. Schneider on 2/22/07 to request an oral election to the above restriction requirement, but did not result in an election being made.
